The Royal Arms Apartment House at Broadway and 138th Street Changes Hands -Tweive Story Office Building to Erected in Thirty-ninth Street.

The brokerage market was extremely quiet yesterday. Barely half a dozen sales were made public and all were of importance. Flats and tenements were the only kinds of realty dealt in. The only item of interest was the sale of the Royal Arms, a six story elevator apartment house at the corner of Broadway and 138th street. No business was done in the auction room. Plans went on record for a new twelve story office building in Thirty-ninth street, just west of Fifth

THE COTTON MARKET.

Another Rise-Too Hot and Dry-Temperatures of 100 to 108 Degrees Considered a Bit Too High Even for a Sun

Bulls again lifted prices with the involun-tary help of some of the shorts. Mr. Price was invited to "assist," but refused to play. It is hot and dry-of that there can be no question. Bulls say it is altogether too hot and dry. This was the chief bull point of the day. The boldest spirits of the bear party refused to be rounded up, saying that the plant is a sun plant and can stand lots of sun and dry weather and suffer no harm thereby. Bulls retort that it is not a tropical plant either and that 100 to 105 degrees is altogether too much of a good thing. The Government report for the week says, more-over, that temperatures have been abnor-mally high in Louisiana, Oklahoma, the many high in Louisians, Okiahoma, the Territories and Arkansas, as well as in Georgia, Tennessee, North Carolina and Mississippi. It adds that rain is needed in western Texas, all parts of Oklahoma and the Territories and in most sections of Mississippi, Arkansas, South Carolina and North Carolina ina. In the old North State it is much needed. That is how the case stands at the moment. Besides, there is a large concentrated short interest here and the severe decline within the last month has eliminated the weak long interest. The very fact that the public is not in the speculation means that there is less danger of a stampede of small holders. The public either goes "long" or lets the specula-

public either goes "long" or lets the speculation alone very severely. The technical position seems to be this, that the short interest is more concentrated than the long interest, though the long interest has latterly increased considerably to all appearance among a group of the more prominent board room operators here.

And what will be the effect of next Monday's August notices? Much depends upon the answer to this question. If the number issued is large the effect may be for the time being at least depressing. Otherwise the "notices" may be merely so many stepping stones to higher things in the matter of prices. After that will come the next monthly Government report. But the thing which operators have to face just at the moment is the weather. If it continues hot and dry a very effective cry may be raised of drought and withering plants and a cotton famine shead, and so on. A weather scare and a sharp advance might bring the outside public into the speculation again. It will not come in until there has been a big rise of prices, for the public in its wisdom likes to lose considerable of an advance in order to make sure that the market had the requisite strength to rise.

Selling Against Firm Offers -Provisions Higher.

Again there was the zigzagging in a small market, this time prices leaning toward a small decline both here and in Europe, although the Brazilian markets were a trifle higher. The spot situation is considered firm and last week's warehouse deliveries it is worth while to recall reached the liberal total of 107,546 bags against 50,197 for the same week last year, showing, it would seem, that the interior has latterly been buying somewhat more freely. Yesterday the total was 12,998 bags against 11,339 for the same day last week and 12,631 last year. Sao Paulo's receipts were small and the total at Rio and Santos thus far this season is 63,000 bags less than for the same time last year and 62,000 below that for the same time two years ago There was some selling against firm offers from Brazil. But the trading was still languid even among professionals, while the outside public continues to give coffee a wide berth. Coffee on the spot was steady at 6%c. for Rio No. 7. Our Bungalow Colony

Is a great success.

Why?
Because it is just what people want.
One's own home is the most comfortable place on earth. Everybody knows that. But it len't comfortable to stay in town during the hot weather, and a big, expensive summer cottage involves too much care and outlay for most people.

The solution of the problem is the Bungalow cottage, simple, cory and cheap, yet fitted up with your own belongings, the little things which make it homelies—where you can spend the entire summer every summer and enjoy every minute of the time.

At Keansburg Beach

we first offered lots for sale one year ago, and to-day between 30 and 40 cottages are built or under way; streets graded, sidewalks being laid and artesian water system installed. Every customer is an enthusiast and every lot with soon be sold. KEANSBURG BEACH is on the Lower Bay, has a fine sandy bathing beach and a wooded park. It is in a celebrated truck, poultry and fruit raising country—fishing is good, all sea foods plentiful and cheap, and the character of the neighborhood is established by the fine class of people who have bought about 600 of the lots. There's no style nor rowdyism, no merry go-rounds or fakers—just a home resort for nice people who want quiet with the delightful combination of seasoner and country. and country.

REANSBURG BEACH is reached by train or via the magnificent Sandy Hook boats in a little over an hour from New York. We still have fine lots at \$125 to \$400 each (only a few higher); easiest terms if desired.
